To whom it may concern

This is a letter of recommendation for Jerry Cameron and his company, Commercial Business Services. My name is Keith Vanderkley, and I am the director of Sales for Amina Technologies, a UK manufacturer and developer of high-end loudspeaker solutions.

Over the past 15 years I have had the pleasure to work with Jerry Cameron in many professional installations ranging from large commercial projects like stadiums, restaurants and nightclubs using high-powered conventional speaker designs, to extremely specialized and esoteric themed installs using completely invisible loudspeaker systems. In each and every installation that I have had the pleasure to work with Jerry, he has proven himself to go the extra mile, to go beyond what one would expect from any systems integrator.

Jerry will always find his client the most effective solution they need, drawing on his many years of expertise as System Designer and Integrator, consulting with both client and manufacturer throughout the design process. This assures that the installations not only address the clients' actual current needs, but ascertains his designs are also forward looking to be able to facilitate scaling up or down when needed. That's what sets Jerry apart from many others. It is for this reason that we are proud to have Commercial Business Services as one of our most valued dealers. Jerry Cameron comes with our highest of recommendations.

With kind regards,

Keith Vanderkley  
Director of Sales
