

To whom it may concern,

This letter is with regards to the fine work that Commercial Business Services has completed for us over the many years of our relationship.

We have done business with Mr. Cameron for more than 8 years and will continue to do business with him in the future.

Jerry has looked after all of our Audio, Visual and Technical needs at Jawny Bakers. His experience and attention to detail is exactly how we run our business and what we expect from others that work with us. Jerry takes a no non-sense and sensible approach to all of his work and products that he offers.

I would recommend Jerry for any type of sound and lighting installation and I am confident he will find you the proper solution for your needs.

Tom Zoras
