To Whom it May Concern,

The purpose of this letter is to provide information concerning the business relationship that we have with Mr. Jerry Cameron of Commercial Business Services.

We have worked very closely with Jerry in regards to installations of Point of Sale equipment in restaurants throughout the province of Ontario. Jerry has worked with the on-site construction crews so that he has been able to install all necessary cabling to provide a network for the Point of Sale Terminals and PC's to be connected together.

Whenever we have encountered a problem at a site, Jerry has always been willing to assist in resolution and he has also brought alternative solutions to the table. He has a passion for "doing the job the right way" and completes all of his tasks in a very professional manner. He is continual looking at solutions that will provide a better service and quality to the work that he provides. Jerry will always follow up with telephone communication to provide information about site details and readiness.

It has always been a pleasure doing business with Mr. Jerry Cameron.

Regards,  
Bob Pizer  
Director of Business Development
